SHARP - Pakistan
Introduction to SHARP-PAKISTAN

Society for Human Rights and Prisoners’ Aid (SHARP) is striving for a human rights-friendly Pakistan since 1999 by working for the well-being of vulnerable segments of society through various means, by it advocacy, community services, capacity building, emergency response and etc. SHARP has had experience of working with various population groups (refugees, IDPs, women, street children etc.) in different thematic areas including Protection, Child Protection, Emergency Response, Advocacy, Education, Infrastructure development, health, and other rights-based approaches throughout the country.

All the initiatives carried out by SHARP focus on ensuring equal opportunities for the deprived segments of society through improved access to justice. SHARP concentrates on building capacities, ensuring promotion of human rights and access to justice by developing linkages and narrowing the gap between the deprived sections of the society and government institutions like law enforcement agencies, police, judiciary, government machinery, and the national and international humanitarian community that are responsible for providing justice and ensuring rights of the poor and needy segments of the society.

Geographical coverage:

SHARP advocates the rights of deserving and distressed individuals and communities across Pakistan. The ongoing interventions in the thematic areas of protection, child protection, livelihoods and education are being carried out in Islamabad capital territory, Punjab, Khyber Pakhtunkhwa (KPK), Sindh and Azad Kashmir, which are managed through the field offices in the locations. The head office of SHARP is based in Islamabad.

Population of concern:

SHARP is an ardent advocate of diversity and therefore, believes in mainstreaming age, gender and diversity (AGD) in all its interventions. The areas of expertise held by SHARP are in the thematic areas of protection, child protection, women empowerment, livelihoods, education and emergency response. And SHARP indiscriminately responds to the needs of affected population.

Organizational response strategy:

SHARP recognizes the current Human Rights state in Pakistan and keeping in view the current rights-based approaches prevalent within our country; SHARP has developed a three-pronged strategy to deal with the adverse socio-economic and politico-legal situation in Pakistan. These are as follows:

18. Carrying out community and policy advocacy for the population of concern
19. Developing strategic partnerships with the likeminded stakeholders
20. Carrying out service delivery and capacity building initiatives

BIDDER’S ETHICAL DECLARATION

Code of Conduct:

1. Labour Standards

The labour standards in this code are based on the conventions of the International Labour Organisation (ILO).

21. Employment is freely chosen

There is no forced, bonded or involuntary prison labour. Workers are not required to lodge ‘deposits’ or their identity papers with the employer and are free to leave their employer after reasonable notice.

22. Freedom of association and the right to collective bargaining are respected

Workers, without distinction, have the right to join or form trade unions of their own choosing and to bargain collectively. The employer adopts an open attitude towards the legitimate activities of trade unions. Workers representatives are not discriminated against and have access to carry out their representative functions in the workplace. Where the right to freedom of association and collective bargaining is restricted under law, the employer facilitates, and does not hinder, the development of parallel means for independent and free association and bargaining.

23. Working conditions are safe and hygienic

A safe and hygienic working environment shall be provided, bearing in mind the prevailing knowledge of the industry and of any specific hazards. Adequate steps shall be taken to prevent accidents and injury to health arising out of, associated with, or occurring in the course of work, by minimising, so far as is reasonably practicable, the causes of hazards inherent in the working environment. Workers shall receive regular and recorded health and safety training, and such training shall be repeated for new or reassigned workers. Access to clean toilet facilities and potable water and, if appropriate, sanitary facilities for food storage shall be provided. Accommodation, where provided, shall be clean, safe, and meet the basic needs of the workers. The company observing the standards shall assign responsibility for health and safety to a senior management representative.

24. Child Labour shall not be used

There shall be no new recruitment of child labour. Companies shall develop or participate in and contribute to policies and programmes, which provide for the transition of any child found to be performing child labour to enable her/him to attend and remain in quality education until no longer a child. Children and young people under 18 years of age shall not be employed at night or in hazardous conditions. These policies and procedures shall conform to the provisions of the relevant International Labour Organisation (ILO) standards.

25. Living wages are paid

Wages and benefits paid for a standard working week meet, at a minimum, national legal standards or industry benchmarks. In any event wages should always be high enough to meet basic needs and to provide some discretionary income. All workers shall be provided with written and understandable information about their employment conditions in respect to wages before they enter employment, and about the particulars of their wages for the pay period concerned each time that they are paid. Deductions from wages as a disciplinary measure shall not be permitted nor shall any deductions from wages not provided for by national law be permitted without the express and informed permission of the worker concerned. All disciplinary measures should be recorded.

26. Working hours are not excessive

Working hours comply with national laws and benchmark industry standards, whichever affords greater protection. In any event, workers shall not on a regular basis be required to work in excess of the local legal working hours. Overtime shall be voluntary, shall not exceed local legal limits, shall not be demanded on a regular basis and shall always be compensated at a premium rate.

27. No discrimination is practised

There is no discrimination in hiring, compensation, access to training, promotion, termination or retirement based on race, caste, national origin, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation.

28. Regular employment is provided

To every extent possible work performed must be on the basis of a recognised employment relationship established through national law and practice. Obligations to employees under labour or social security laws and regulations arising from the regular employment relationship shall not be avoided through the use of
labour-only contracting, sub-contracting or home-working arrangements, or through apprenticeship schemes where there is no real intent to impart skills or provide regular employment, nor shall any such obligations be avoided through the excessive use of fixed-term contracts of employment.

29. No harsh or inhumane treatment is allowed

Physical abuse or discipline, the threat of physical abuse, sexual or other harassment and verbal abuse or other forms of intimidation shall be prohibited.

B. Environmental Standards

Suppliers should as a minimum comply with all statutory and other legal requirements relating to the environmental impacts of their business. Detailed performance standards are a matter for suppliers, but should address at least the following:

30. Waste Management

Waste is minimised and items recycled whenever this is practicable. Effective controls of waste in respect of ground, air, and water pollution are adopted. In the case of hazardous materials, emergency response plans are in place.

31. Packaging and Paper

Undue and unnecessary use of materials is avoided, and recycled materials used whenever appropriate.

32. Conservation

Processes and activities are monitored and modified as necessary to ensure that conservation of scarce resources, including water, flora and fauna and productive land in certain situations.

33. Energy Use

All production and delivery processes, including the use of heating, ventilation, lighting, IT systems and transportation, are based on the need to maximise efficient energy use and to minimise harmful emissions.

34. Safety precautions for transport and cargo handling

All transport and cargo handling processes are based on the need to maximise safety precautions and to minimise potential injuries to SHARP beneficiaries and staff as well as the suppliers’s employees or those of its subcontractors.

C. Business Behaviour

The conduct of the supplier should not violate the basic rights of SHARP’s beneficiaries.

The supplier should not be engaged

35. in the manufacture of arms
36. in the sale of arms to governments which systematically violate the human rights of their citizens; or where there is internal armed conflict or major tensions; or where the sale of arms may jeopardise regional peace and security.

37.

D. SHARP procurement rules and regulations

Suppliers should comply with SHARP procurement rules and regulations outlines in SHARP’s Logistics Manual Version 1.3. or above. In particular, SHARP’s procurement policy set out in Section 2.1 and 2.4. (contract awarding). By doing so, Suppliers acknowledge that they do not find themselves in any of the situations of exclusion as refered to under section 2.4.2.
Operating Principles

The implementation of the Code of Conduct will be a shared responsibility between SHARP and its suppliers, informed by a number of operating principles, which will be reviewed from time to time.

SHARP will:
38. Assign responsibility for ensuring compliance with the Code of Conduct to a senior manager.
39. Communicate its commitment to the Code of Conduct to employees, supporters and donors, as well as to all suppliers of goods and services.
40. Make appropriate human and financial resources available to meet its stated commitments, including training and guidelines for relevant personnel.
41. Provide guidance and reasonable non-financial support to suppliers who genuinely seek to promote and implement the Code standards in their own business and in the relevant supply chains, within available resources.
42. Adopt appropriate methods and systems for monitoring and verifying the achievement of the standards.
43. Seek to maximise the beneficial effect of the resources available, e.g. by collaborating with other NGOs, and by prioritising the most likely locations of non-compliance.

SHARP expects suppliers to:
44. Accept responsibility for labour and environmental conditions under which products are made and services provided. This includes all work contrSHARP or sub-contrSHARP and that conducted by home or other out-workers.
45. Assign responsibility for implementing the Code of Conduct to a senior manager.
46. Make a written Statement of Intent regarding the company’s policy in relation to the Code of Conduct and how it will be implemented, and communicate this to staff and suppliers as well as to SHARP.

Both parties will
47. require the immediate cessation of serious breaches of the Code and, where these persist, terminate the business relationship.
48. Seek to ensure all employees are aware of their rights and involved in the decisions which affect them.
49. Avoid discriminating against enterprises in developing countries.
50. Recognise official regulation and inspection of workplace standards, and the interests of legitimate trades unions and other representative organisations.
51. seek arbitration in the case of unresolved disputes.

Qualifications To The Policy Statement

The humanitarian imperative is paramount. Where speed of deployment is essential in saving lives, SHARP will purchase necessary goods and services from the most appropriate available source.

SHARP can accept neither uncontrolled cost increases nor drops in quality. It accepts appropriate internal costs but will work with suppliers to achieve required ethical standards as far as possible at no increase in cost or decrease in quality.

I undersigned [tenderer’s name], agree to adopt the above Code of Conduct and to commit to comply with the labour and environmental standards specified, both in my own company and those of my suppliers.
